

What is Good Design?

A Design Principals Study

Contrast

The contrast of bright, warm values against a complementary cool background puts surreal emphasis on the film title, and creates an aura of surrealism and magic

Realism

The juxtaposition of a realistic face in a dreamy, fantasy-like context evokes discomfort and confusion, suggesting that this figure is antagonistic or dangerous

Proximity

The relative proximity of these three figures suggests the bottom characters' intimacy, and their shared helplessness against the overwhelming power of the top character

Color

The use of the recognizable blue-white-pink color scheme (used in the transgender pride flag) evokes themes of youth, gender roles, and exploration of gender identity
